Burt,

Attached is our initial reaction to the White Paper. This represents the combined input from and Jewelyn Wellborn, Manager of Federal Government Affairs (HDMA's Lobbyist on controlled substances matters) and me. We entered some changes and comments where we thought appropriate.

Because HDMA and our members generally aren't directly involved in most of the issues discussed, such as the PMPs and impacts on practitioners and patients, it is unlikely we would "sign onto" this. However, if there is going to be a revised version, we'd consider sending it to our members to see what they think.

We also generally agreed with TEVA's comments and just now saw Bob Saner's e-mail. We think many of Bob's points are worth further consideration and while we also appreciate your concern about timing, we would agree this isn't ready to give to CDC. Perhaps a different approach, such as the one-pagers TEVA suggested, might be a better way to go.

Either Jewelyn or I (or both) will be in the office and available next week if you want to discuss it further.

Thanks for the opportunity to review this and have a great weekend.

Anita

Subject: CDC-F White Paper

Pain Care Forum

This is the draft white paper for discussion. Bob Twillman, June Dahl, Stew Leavitt and Cindy Steinberg are the major contributors. Many thanks to them for their drafting. Our goal will be to get this in satisfactory form to share with CDC. The CDC has expressed a desire to join us at our February meeting to begin a dialogue and collaboration around the issues in this white paper. Your feedback is greatly appreciated.

Looking forward to our first meeting of 2012 tomorrow at 10:30.

Regards
